Coping With Unemployment

Losing your job is stressful - trying to deal with the situation alone can be intimidating. During this time it is important to reach out to your loved ones. Having a support system of friends and family will help you deal with your frustration and manage your stress.

Not only will your loved ones be a source of support and encouragement, but they can also assist in your job search. Many job openings today are never posted; instead they are filled through word of mouth. By staying connected to your friends and family, you increase your chances of networking with multiple employers and possibly even finding your next job.

Applying for Unemployment Benefits

If you are currently unemployed due to no fault of your own, you may be eligible for unemployment insurance benefits. You may file your application for benefits using Uplink, Indiana's unemployment insurance filing system, from a computer with Internet access at www.in.gov/dwd/unemployment or at any WorkOne Center. **Don't forget to check out the online tutorial before you get started!**

You will need the following information when filing for unemployment benefits:

- Address, social security number, date of birth and phone number
- Last employer's name, mailing address, phone number, dates of employment and reason unemployed.
- TIP : Bring your latest check stub from this employer with you.

What Hoosiers Should Expect Following Initial Claim Filing

*NOTE: After filing the initial claim, claimants do not need to contact DWD or their local WorkOne Center for **21 days**, unless otherwise instructed. Eligibility will be determined during this period.*

- Within ten days of filing claimants will receive a wage transcript and benefits computation form.
- This form does not determine qualification; it is a statement providing a possible weekly benefit amount and an overall maximum benefit amount should a claimant be eligible.
- Eligible recipients typically receive their VISA® debit card within 21 days. The debit card can be used anywhere VISA® is accepted or at any ATM machine. Online banking can be used to transfer funds to a claimant's personal banking account or by calling 1-888-393-5866.
- Weekly benefits are credited to the VISA® account. Claimants will not receive payments for the first week they submit a voucher and are eligible. State law requires a one week waiting period.

Helpful Hints for Creating an Effective Resume

Your resume has one specific purpose: to win an interview. Creating an effective resume can greatly improve your chances of standing out from the crowd and landing your next job. Listed below are ten helpful tips to keep in mind as you create your resume.

1. **Start with the basics.** Put your name and contact information at the top so the employers can easily identify you.
2. **List your most recent and relevant work experience.** You don't need to list all of your experience, just what will attract the employer to you.
3. **Use bullets, with titles and headlines that match the job you want.** This will make your resume clear and concise, helping to grab the potential employer's attention.
4. **Short descriptive sentences.** Bullet your achievements. Action verbs such as managed, coached, presented or wrote will more effectively create content that sells.
5. **Have a clear focus.** If you have worked somewhere for a long time, list all of your positions. This will show that you moved up and were promoted for your hard work. Remember to focus on your skills, not your employment history.
6. **Don't use jargon or slang words.** This is not professional and can cause employers to overlook you. Clear and concise wording is crucial.
7. **Remember that neatness counts.** Make sure all of your headings are aligned or centered, creating a design that grabs attention. Try to use at least 12 point font.
8. **Keep your resume to one page.** You want to provide the necessary information without going overboard, unnecessary details will bore your potential employer.
9. **Proofreading.** Errors and sloppy mistakes will send your resume straight to the trash. Re-reading your resume the next day will help you catch errors. Having someone else proofread your resume is a great way to find mistakes. A fresh pair of eyes will often find things you missed.
10. **Presentation.** When you print out your resume, use a good printer and resume paper. Submitting a smudged or wrinkled document, will not portray the professionalism you desire.

NOTE : If you are e-mailing your resume, send it in PDF format to avoid distortion.

Tips for a Successful Interview

A successful interview is the key to getting the job you want. Your resume helped you stand out from the crowd - now it is time to make a good impression and persuade your potential employer that you are the right fit for the job. Here are a few guidelines that will help make your next interview a successful one:

- **Research.** Do your homework on the company and the position. Knowing the company's past and future plans will show you are well prepared and allow you to target your answers to the company's needs.
- **Practice.** Do a mock interview and prepare answers to general questions. This will allow you to give clear, concise and confident answer.
- **Make Eye Contact.** Maintain eye contact with the interviewer. This will show that you are interested in the position and confident.
- **Be Positive!** Don't make negative comments about past employers or job duties. Your potential employer will think you have a bad attitude.
- **Relate.** Use your research on the position to apply your answers to the company. This will show them how you and your skills can better their business.
- **Demonstrate Interest.** Encourage the interviewer to share details about the company with you. This will demonstrate your interest in the company and help you determine if you are a good fit for the position.
- **Dress for Success.** Dress your best regardless of company dress code. If you are unsure what to wear, it is best to go conservative and overdressed rather than underdressed.
- **Follow-up.** After the interview, send a thank you card restating your interest in the company and the position.

Cobra Health Insurance Benefits

The Federal Government has enacted a new policy allowing laid-off workers to extend their employer-sponsored group health coverage for up to 18 months, under COBRA. Workers laid-off between September 1, 2008 and December 31, 2009 are eligible and will be notified by their employer.

Once you receive notice of eligibility, you will have 60 days from the date of notification to elect coverage. If you do not opt to participate within the first 60 days, you will lose the opportunity.

If you decide to participate, you will be required to pay 35% of the cost and the federal government will reimburse your employer for the other 65%. **Once you are enrolled, make sure all of your payments are made on time. Failure to do so will result in the loss of coverage. Once this happens it is impossible to get it back.**

If you do not receive notification from your employer or have an issue with receiving your COBRA benefits, call the U.S. Department of Labor's division of Employer Benefits Security Administration at 866-444-3272.
